Why Apex Digital’s pipeline stops when the budget does

B2B SaaS for construction project managers | Outbound Pipeline Analysis

4–8

qualified calls/month

30

day pilot

£0

if no results

Prepared for James at Apex Digital · April 2026

Paid traffic alone cannot build Apex Digital's pipeline

mid-sized UK construction firms managing 5+ concurrent projects never see Apex Digital

Without outbound, Apex Digital only reaches buyers who find them first. The rest of the market is untouched.

Spend £1 to acquire every lead

Remove the budget and the pipeline stops. Not gradually — immediately. You are renting your pipeline, not building it.

Buildertrend and CoConstruct are already in those inboxes

They reached mid-sized UK construction firms managing 5+ concurrent projects first. That conversation happened without Apex Digital.

CPAs compound as audiences saturate

What works at £30 per lead becomes £90 within 18 months. The ceiling drops as the audience shrinks.

This caps your pipeline. Hard.

Powered by Claude Code

1. Identify mid-sized UK construction firms managing 5+ concurrent projects before they start searching for a solution
2. Research every contact — miscommunication between site and office as the hook
3. Reach them with sequences that read like a peer sent them
4. Classify replies the same day — interested leads move to a booked call

```
$ claude run leadgen-agent --company "Apex Digital"
> Scanning B2B SaaS for construction project managers for mid-sized UK
construction firms managing 5+ concurrent projects...
> Pain point identified: miscommunication between site and office
> 47 qualified contacts found in target segment
> Sequences queued: 47  |  Expected replies: 8–12
Done. Apex Digital pipeline ready.
```

Buildertrend and CoConstruct are already in your buyers' inboxes

Buildertrend

Running structured cold outreach into mid-sized UK construction firms managing 5+ concurrent projects

Booking first conversations before Apex Digital enters the picture

CoConstruct

Reaching B2B SaaS for construction project managers buyers at scale

Capturing demand before it becomes a search

They get first contact. You do not.

First contact sets the frame. That matters more than having a better product.

The System

01

We find the mid-sized UK construction firms managing 5+ concurrent projects already dealing with miscommunication between site and office — before they go looking for a solution.

02

We reach them directly. Every message is grounded in something real about their business.

03

We turn replies into booked conversations with Apex Digital’s team. Nothing is missed.

No results. No charge.

4–8

qualified calls per month

30

days to first results

£0

cost if no qualified conversations

Book a 20-minute call. We will walk through the target list, the sequence, and expected volume — specific to Apex Digital.
