Built on Claude Code

Why Harmony Booths 1 is invisible to your buyers

Affordable photo booth hire across the UK. Perfect for weddings, parties, and corporate events with unlimited prints and | Outbound Pipeline Analysis

4–8

qualified calls/month

30

day pilot

£0

if no results

Prepared for Founder at Harmony Booths 1 · April 2026

Harmony Booths 1’s growth depends on being found

your buyers never see Harmony Booths 1

Without outbound, Harmony Booths 1 only reaches buyers who find them first. The rest of the market is untouched.

Spend £1 to acquire every lead

Remove the budget and the pipeline stops. Not gradually — immediately. You are renting your pipeline, not building it.

competitors in your space is already in those inboxes

They reached your buyers first. That conversation happened without Harmony Booths 1.

CPAs compound as audiences saturate

What works at £30 per lead becomes £90 within 18 months. The ceiling drops as the audience shrinks.

This caps your pipeline. Hard.

Powered by Claude Code

1. Identify your buyers before they start searching for a solution
2. Research every contact — the core problem Harmony Booths 1 solves as the hook
3. Reach them with sequences that read like a peer sent them
4. Classify replies the same day — interested leads move to a booked call

```
$ claude run leadgen-agent --company "Harmony Booths 1"
> Scanning Affordable photo booth hire across the UK. Perfect for
weddings, parties, and corporate events with unlimited prints and for your
buyers...
> Pain point identified: the core problem Harmony Booths 1 solves
> 47 qualified contacts found in target segment
> Sequences queued: 47  |  Expected replies: 8-12
Done. Harmony Booths 1 pipeline ready.
```
